# JOOMLA & AMADEUS

Technology :   Joomla, PHP and Amadeus - Web Services
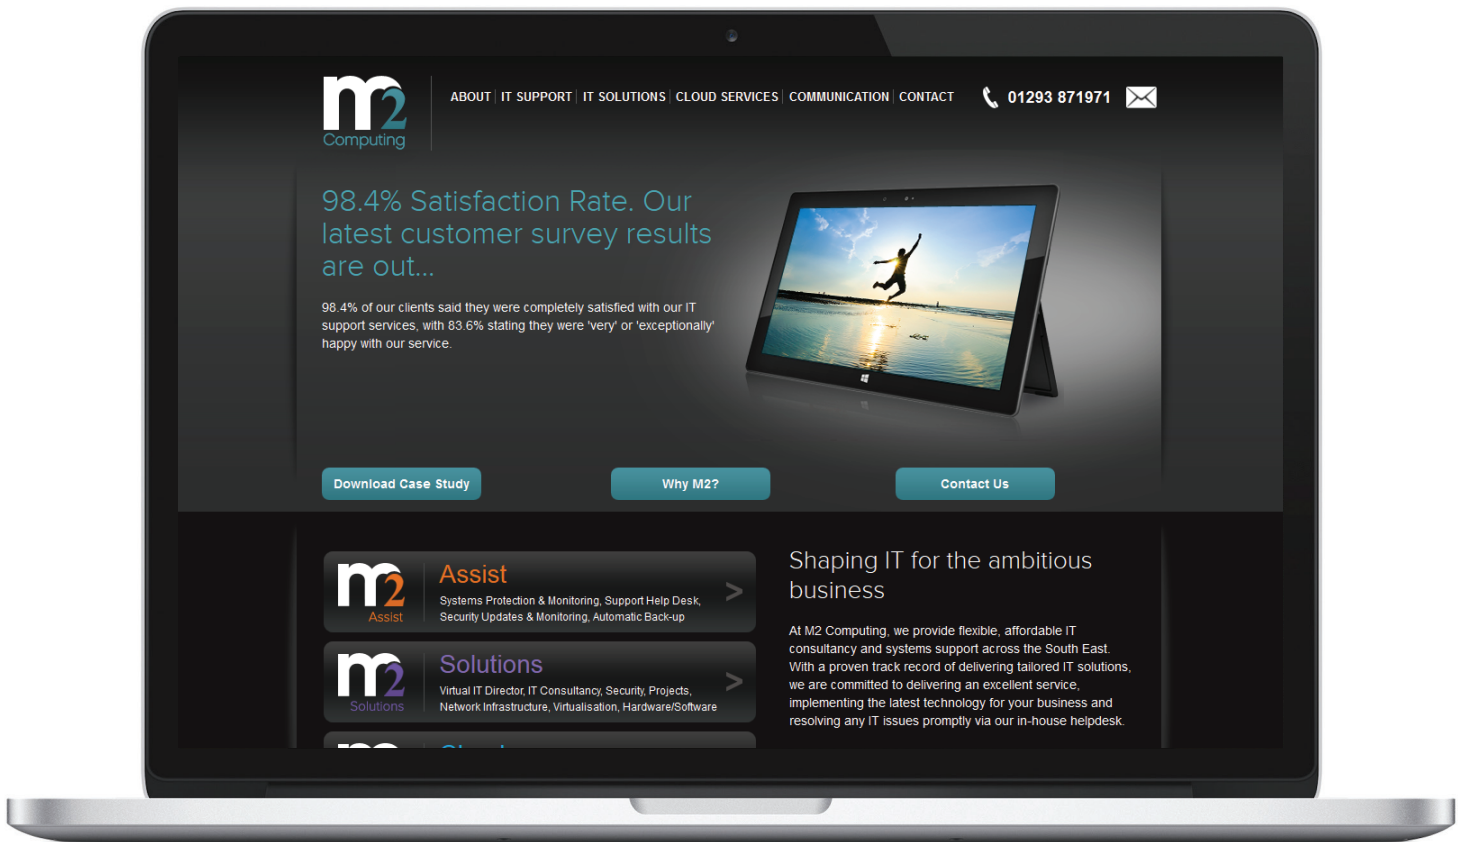

Alternative Airlines

Alternative Airlines offer cheap flights on the widest possible range of the world's airlines and allow customers to plan trips from a massive choice of flights. Alternative Airlines is continually enlarging the number of airlines which are immediately bookable through the new IBE which Fortunesoft has developed.

Website URL: www.alternativeairlines.com

❝ Fortunesoft has recently completed a complex API integration project, to create a customised flight booking application for each of our travel websites. The organisation has been a joy to work with. All staff members have proved highly creative and technically skilled; very responsive to our requirements and have shown meticulous attention to detail. Communication with the team has been excellent and the resulting application exceeds our expectations. We now see Fortunesoft as an integral part of our future web development strategy, and look forward to continuing our work together.❞

John Pope
Managing Director, ALTERNATIVE AIRLINES - London, UK.

DRUPAL

Technology :   Drupal, PHP and MySQL

M2 Computing (UK)

   M2Computing is a website which provides information about their support, services and solutions. Fortunesoft have designed and developed this website using a Drupal content management system and integrated blog and client portal in this website. The website had easily traversable user interfaces enabling users to find relevant content with ease. The website had social sharing features built in enabling users who visit the website to connect with M2Computing in the particular social network.

WORDPRESS

Technology :   WordPress CMS, Java Script, Apache & MySQL

Live Language

Fortunesoft developed the entire Live Language website for the client using WordPress CMS. Live Language offered the biggest range of English language courses in the world. The client had an existing website which was developed using WordPress version 1.5 frontend and MySQL database as the backend. Based on the client's new requirements, Fortunesoft migrated the existing Live Language website from WordPress to WordPress CMS.
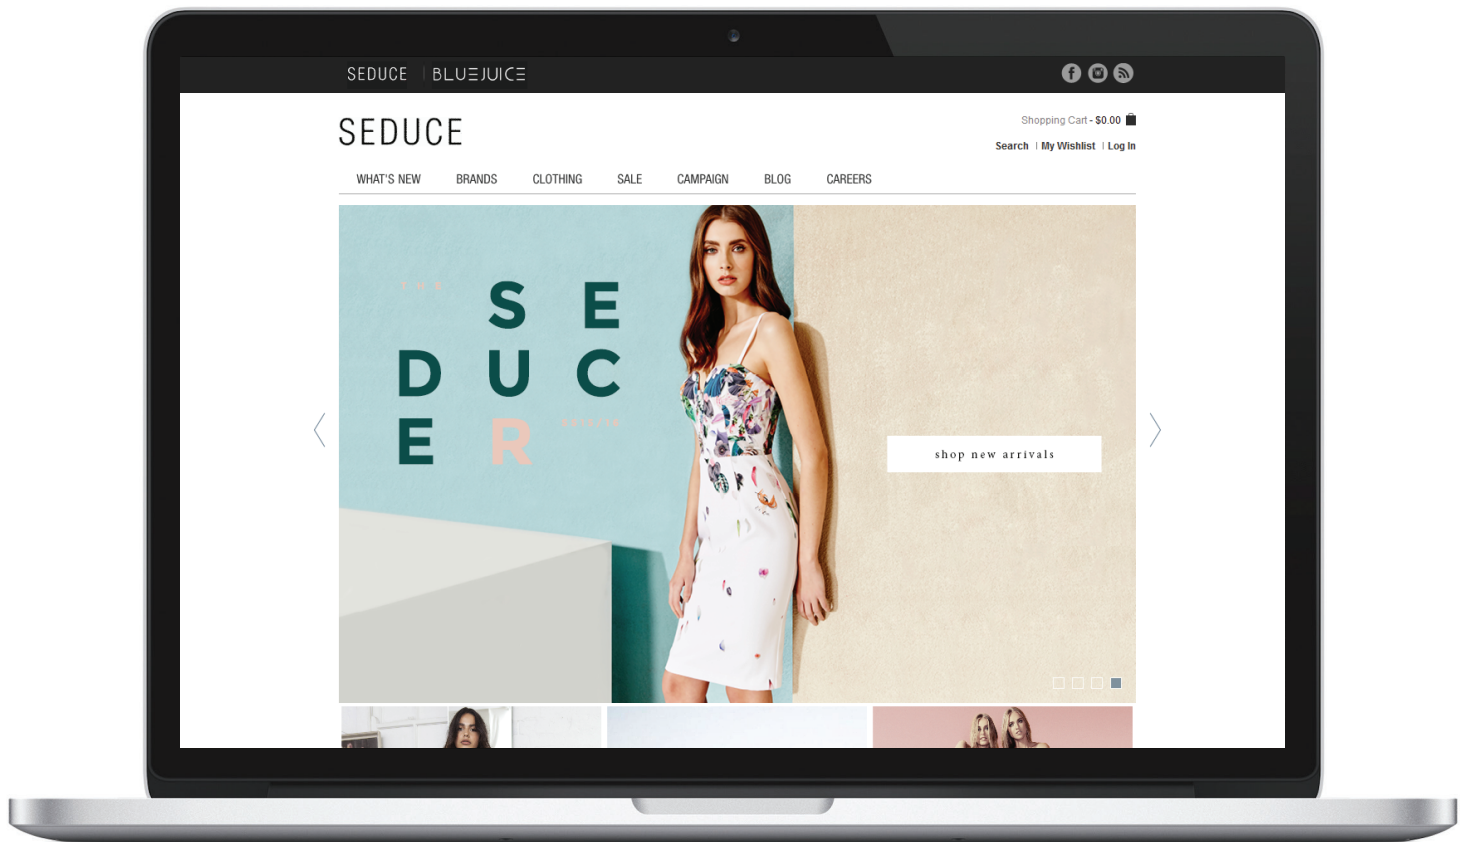

Website URL: www.live-language.com

❝ I really appreciate the team's efforts. It has been a pleasure to see this project become a reality. My hope is that the website will then stand as a testament to all of the effort invested in it by so many people. Thank you again for all of your support and assistance. ❞

Katinka Csizmadit
Communications Assistant Manager, Live Language – Glasgow, Scotland.

MAGENTO

Technology : Magento, PHP, jQuery and MySQL

Seduce (Australia)

Seduce is an Australia's leading fashion company specializing in providing quality and trending fashion clothing and accessories to the consumers globally.
